Preface	3
Contents	5
Opening Statement	11
Welcome Address, Copenhagen Town Hall	13
Organization, Conference Sponsors	15
Background and Purpose	17
KEY-NOTE ADDRESS	
G.M. Idorn: 30 YEARS WITH ALKALIS IN CONCRETE	19
<u>SESSION 1a</u> - "Engineering and Industrial Aspects of Alkalis in Cement and Concrete"	39
INTRODUCTION	
Ib Worning & V. Johansen: ALKALIS IN CEMENT AND CEMENT MANUFACTURE	41
L.U. Spellman: USE OF GROUND GRANULATED SLAG TO OVERCOME THE EFFECTS OF ALKALIS IN CONCRETE AND MORTAR	55
P.J. Nixon and M.E. Gaze: THE EFFECTIVENESS OF FLYASHES AND GRANULATED BLASTFURNACE SLAGS IN PREVENTING AAR	61
Ian Sims: THE INFLUENCE OF GROUND GRANULATED BLASTFURNACE SLAG ON THE ALKALI-REACTIVITY OF FLINT AGGREGATE CONCRETE IN THE UNITED KINGDOM	69
K.E. Daugherty, R.J. Faust, T.P. Zgambo and J.G. Griffin: POTASSIUM SULFATE IN KILN DUST	85
B. Osbæk: ALKALIS AND CEMENT STRENGTHS	93
Bengt Forss: EXPERIENCES FROM THE USE OF F-CEMENT - A BINDER BASED ON ALKALI-ACTIVATED BLASTFURNACE SLAG	101
Preben Christensen, S. Chatterji, A. Damgaard Jensen and N. Thaulow: PRELIMINARY INVESTIGATION OF ALKALI-SILICA REACTIVITY OF DENSITY SEPARATED COARSE AGGREGATE	105
Steen Andersen, Jytte Lyngvig, Jette Andersen and Ole Sommer: THE RAW MATERIALS ACT AND CONCRETE AGGREGATES	111
CHAIRMAN'S REPORT, Session 1a W. Schräfli	119

	<u>Page</u>
<u>SESSION 1b</u> - "Alkalis in Concrete - Engineering Education Aspects"	123
INTRODUCTION 1)	
A.B. Poole: ALKALIS IN CONCRETE: A MATTER OF EDUCATION FOR ENGINEER AND RESEARCH SCIENTIST	125
INTRODUCTION 2)	
Gunnar P. Rosendahl: QUALITY ASSURANCE AND COMMUNICATION - ENGINEERING EDUCATION ASPECTS	133
John Figg: ASR-QED AN ATTEMPT TO PROVIDE AN EXPLANATION FOR ENGINEERS OF THE EXPANSIVE REACTION BETWEEN ALKALIES AND SILICEOUS AGGREGATES IN CONCRETE	137
G.M. Idorn: EDUCATION FOR EFFECTIVE UTILIZATION OF ALKALIS IN CONCRETE	145
CHAIRMAN'S REPORT, Session 1b Torben C. Hansen	151
<u>SESSION 2</u> - "Mechanisms of Reactions of Alkalis in Concrete"	153
INTRODUCTION	
Sidney Diamond: ALKALI REACTIONS IN CONCRETE-PORE SOLUTION EFFECTS	155
Mitsunori Kawamura, Kunio Takemoto and Shigemasa Hasaba: APPLICATION OF QUANTITATIVE EDXA ANALYSES AND MICROHARDNESS MEASUREMENTS TO THE STUDY OF ALKALI-SILICA REACTION MECHANISMS	167
A.B. Poole and I. Al-Dabbagh: REACTIVE AGGREGATES AND THE PRODUCTS OF ALKALI-SILICA REACTION IN CONCRETES	175
H.E. Vivian: THE PROCESSES OF ALKALI-AGGREGATE REACTION, WATER ABSORPTION, REACTED AGGREGATE SWELLING, EXPANSION OF MORTAR AND CONCRETE AND POZZOLAN BEHAVIOUR	187
Anders Nielsen: SORPTION PROPERTIES OF CONCRETE WITH ALKALI-SILICA REACTIVE AGGREGATE	195
Lars-Olof Nilsson: MOISTURE EFFECTS ON THE ALKALI-SILICA REACTION	201
I. Jawed, L. Struble and J. Epp: DISSOLUTION AND HYDRATION OF C_3A-Na_2O SOLID SOLUTIONS	209

	<u>Page</u>
Gudmundur Gudmundsson and Haraldur Asgeirsson: PARAMETERS AFFECTING ALKALI EXPANSION IN ICELANDIC CONCRETES	217
R.I.A. Malek and D.M. Roy: EFFECT OF SLAG CEMENTS AND AGGREGATE TYPE ON ALKALI-AGGREGATE REACTION AND ITS MECHANISMS	223
L. Boswell and E.C. Robert, F.C. Buttler and S.R. Morgan: ALKALI CONTENT AND EXPANSION OF MORTARS CONTAINING PULVERISED FUEL ASH	231
J. Marr and F.P. Glasser: EFFECT OF SILICA, PFA AND SLAG ADDITIVES ON THE COMPOSITION OF CEMENT PORE FLUIDS	239
H.E. Vivian: THE POZZOLANIC BEHAVIOUR OF FLY ASH IN BLENDED PORTLAND-FLY ASH CEMENTS	243
Gert Dahl, Ervin Poulsen and Anton Timm: DAMAGE OF CONCRETE CYLINDERS WITH REACTIVE SAND AND NON-REACTIVE, COARSE AGGREGATES	249
S. Chatterji, N. Thaulow, P. Christensen and A.D. Jensen: STUDIES OF ALKALI-SILICA REACTION WITH SPECIAL REFERENCE TO PREVENTION OF DAMAGE TO CONCRETE. A PRELIMINARY STUDY	253
Tang Ming-shu and Han Su-fen: KINETICS OF ALKALI-SILICA REACTION	261
CO-CHAIRMAN'S REPORT, Session 2 (first part) Jan P. Skalny	269
CHAIRMAN'S REPORT, Session 2 (second part) Ian Sims	271
<u>SESSION 3</u> - "Methods of Examination"	273
INTRODUCTION	
Micheline Regourd: METHODS OF EXAMINATION	275
Olof Peterson: POP-OUT FORMATION. A LABORATORY STUDY WITH A SWEDISH OPALINE GRAVEL	291
CHAIRMAN'S REPORT, Session 3 C.D. Pomeroy	299

	<u>Page</u>
<u>SESSION 4 - "Testing Methods and Criteria"</u>	301
INTRODUCTION	
P.E. Grattan-Bellew: EVALUATION OF TEST METHODS FOR ALKALI-AGGREGATE REACTIVITY	303
Preben Christensen, S. Chatterji, N. Thaulow and Arne Damgaard Jensen: ALKALI-SILICA REACTIVITY OF VARIOUS DANISH FLINT TYPES	315
Dennis Lenzner: COMPARATIVE LABORATORY TESTS ON THE ALKALI-SILICA REACTION	321
P.J. Nixon and R. Bollinghaus: TESTING FOR ALKALI REACTIVE AGGREGATES IN THE UK	329
Ian Sims and Panos Sotiropoulos: STANDARD ALKALI-REACTIVITY TESTING OF CARBONATE ROCKS FROM THE MIDDLE EAST AND NORTH AFRICA	337
David Stark: OSMOTIC CELL TEST TO IDENTIFY POTENTIAL FOR ALKALI-AGGREGATE REACTIVITY	351
Niels Thaulow and Hákon Olafsson: ALKALI-SILICA REACTIVITY OF SANDS, COMPARISON OF VARIOUS TEST METHODS. NORDTEST PROJECT	359
H.E. Vivian: ASSESSMENT OF AGGREGATE REACTIVITY TESTS AND SIGNIFICANCE OF TEST RESULTS	365
R.F.M. Bakker: THE INFLUENCE OF TEST SPECIMEN DIMENSIONS ON THE EXPANSION OF ALKALI REACTIVE AGGREGATE IN CONCRETE	369
Mario Berra: PERFORMANCE OF SOME ITALIAN CEMENTS TESTED FOR ALKALI-SILICA REACTION	377
Tang Ming-shu and Han Su-fen: RAPID METHOD FOR DETERMINING THE PREVENTIVE EFFECT OF MINERAL ADMIXTURES ON ALKALI-SILICA REACTION	383
CHAIRMAN'S REPORT, Session 4 Udo Ludwig	387
<u>SESSION 5 - "Effects in Practice of Alkalis in Concrete"</u>	389
INTRODUCTION	
Paul Poitevin: EFFECTS IN PRACTICE OF ALKALIS IN CONCRETE	391
G.E. Blight and M.G. Alexander, W.K. Schutte and T.K. Ralph: THE EFFECT OF ALKALI-AGGREGATE REACTION ON THE STRENGTH AND DEFORMATION OF A REINFORCED CONCRETE STRUCTURE	401

	<u>Page</u>
Anders Nielsen: SERVICE LIFE PREDICTION AND ALKALI-SILICA REACTIONS	411
R.E. Oberholster: ALKALI REACTIVITY OF SILICEOUS ROCK AGGREGATES: DIAGNOSIS OF THE REACTION, TESTING OF CEMENT AND AGGREGATE AND PRESCRIPTION OF PREVENTIVE MEASURES	419
H. Mørup: A SWIMMING POOL DETERIORATED BY ALKALI-AGGREGATE REACTIONS	435
Svend E. Petersen: DAMAGES TO SWIMMING POOLS DUE TO ALKALI SILICA REACTIONS	441
P. Christensen, I. Brandt and K.R. Henriksen: QUALITY CONTROL OF SAND BY MEANS OF POINT-COUNTING IN LIGHT-OPTICAL MICROSCOPE	449
C.D. Comberbach, P.G. Fookes and J. Cann: DETERIORATION OF CONCRETE STRUCTURES IN SOUTH WEST ENGLAND: THE USE OF CRACK MAPPING AS AN INVESTIGATORY TOOL	455
Niels Thaulow: ALKALI-SILICA REACTION IN THE ITEZHITZHI DAM PROJECT, ZAMBIA	471
Hákon Olafsson: REPAIR OF VULNERABLE CONCRETE	479
Jonathan G.M. Wood and Peter J. Wickens: STRUCTURAL EFFECTS OF AAR ON REINFORCED CONCRETE AND CONSIDERATION OF REMEDIAL ACTION	487
Branka Zatler and Edvard Mali: ALKALI-AGGREGATE REACTION IN LIGHTWEIGHT CONCRETE	495
Giulia Baronio: EXAMPLES OF DETERIORATION BY ALKALIS IN ITALIAN CONCRETE STRUCTURES	503
Xu Huarong and Chen Meiliang: INVESTIGATION FOR NATURAL REACTIVE AGGREGATES IN GRAVEL ALLUVIUM OF YANGTZE RIVER BASIN	511
CHAIRMAN'S REPORT, Session 5 Bryant Mather	517
<u>SESSION 6 - Concluding Session</u>	519
CHAIRMAN'S REPORT, Session 6 G.M. Idorn	521
